

Spending Your Money

USING ATM/DEBIT CARDS

An ATM/Debit card works like a check and can be used to withdraw money from a bank. It can also be used for other banking services after banking hours. The card looks similar to a credit card. Sort the facts below into the correct boxes. Some statements are true for both cards.

1. Can be used to get cash from a machine
2. There may be a fee to use it
3. Can be used to withdraw money from a checking account, but no check is used
4. Involves punching a secret 4-digit code into a machine
5. Can be used instead of a check to pay at a store
6. Can be used to charge a purchase
7. Involves sliding a card through a machine
